PROFESSIONAL SUMMARY

Application System Engineer with 3+ years of experience in web and software development using PHP, JavaScript, HTML, CSS, and MySQL. Developed and maintained client-facing applications at Fujitsu, resolved defects, and prepared technical specifications and test evidence. Additional experience building business applications and workflows with Power Apps, Power Automate, SharePoint, and TypeScript.

TECHNICAL SKILLS

Frontend: React, Vite, HTML, CSS, Tailwind CSS

Backend frameworks: Django, Laravel

Programming languages: Python, PHP, JavaScript, TypeScript

Databases: MySQL, PostgreSQL

Deployment & hosting: Railway, Render, Vercel, Netlify

Development & design tools: GitHub, Postman, Visual Studio Code, Antigravity IDE, Figma

AI tools: ChatGPT, Google AI Studio, Google Flow

Automation: Power Apps, Power Automate, SharePoint Lists

PROFESSIONAL EXPERIENCE

Fujitsu | Application System Engineer | 2022 - 2025

- Developed and maintained client web applications using PHP, JavaScript, MySQL, HTML, and CSS.
- Collaborated with clients on system architecture and data structures; translated requirements into program specifications and technical documentation.
- Investigated and fixed application bugs, implemented performance improvements, and delivered changes under tight deadlines.
- Prepared test results and supporting evidence to validate system functionality.
- Led business process automation development using Power Apps and Power Automate, with SharePoint Lists for structured data storage.
- Built workflows to process data, generate reports, and export results to Excel; implemented additional automation logic using TypeScript.

Department of Environment and Natural Resources (DENR)

Technical Support Staff | September - December 2021

- Created and updated ArcGIS Pro maps for surveyed farm lots as part of the Survey and Registration of Protected Area Occupants (SRPAO) project.
- Processed KML/KMZ files, consolidated waypoint and geotagged photo data, and exported maps to PDF/JPEG.

EDUCATION

Bachelor of Science in Information Systems | 2020

Catanduanes State University, Virac, Catanduanes

PROFESSIONAL TRAINING

Full-Stack Web Development Training

RivanCyber Training Institute Inc.

Hands-on, project-based training covering frontend and backend development, database integration, API implementation, and deployment of modern web applications.
